Sewing Instructions for 12 inch Blocks

All Seams 1/4"

1) Decide which accent fabrics you want to use on which panel blocks and the center block. You will need TWO (2) accents per block.

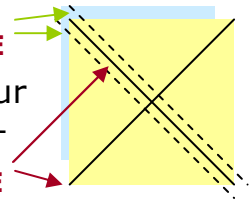

2) Working with your accent fabrics, draw a diagonal line from corner to corner, BOTH ways, on one side of the accent block pair you are working with.

3) Working with your accent fabric pairs, sew a line on EACH side of ONE of the diagonal lines you drew on your fabric. When you have created a seam on both sides of the diagonal line, cut your fabric on the diagonal line that you did NOT sew on and on the diagonal line between the seams you DID sew. Press the seam to the darkest fabric.

Sew HERE

Cut HERE

4) Using the panel block squares and center square fabrics, place your finished triangles around the centers, pressing toward the center when sewn. When finished you should have EIGHT (8) completed panel blocks and ONE (1) completed center block.

You will *not* need all of the 7 1/4" squares that you cut - but, mix and match and have some FUNKY FUN with them to create a look all your own!

Now you're ready for
Instruction Set # 2!
